

We believe in a lifetime of learning. Hands-on courses are offered to our referring doctors throughout the year.

Unexpected but very welcomed visitor!

Clear communication is the cornerstone of any successful treatment. At ClearCare we take time to ensure that every patient fully understands their treatment options so that they can make the best decision that suits them.

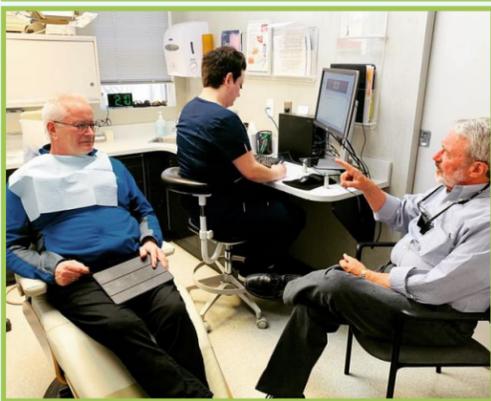

Selfie from the Chair campaign raised over \$900.00 for the children's hospital.

In-house Laboratory

Our comprehensive study club meets every month to study real cases that regularly come through our offices. Total Case Management is the focus of the group. Our study club aims to establish a safe environment where everyone can comfortably discuss their challenges, successes, and failures. This allows us to benefit from each others' experiences, knowledge, insights, and mistakes.

Direct communication with patients is the central building block for developing a therapeutic doctor-patient relationship.

We take an interdisciplinary approach to optimize and execute highly individualized comprehensive treatment plans. All of us are smarter than any one of us!

Our first Zoom Course-Occlusion in Everyday Dentistry was a huge success! Dr. Hoffer guided an exploration and discussion of where we have been as a profession and where we currently are in our understanding. The fundamentals and theory of occlusion were discussed but also supported with real world applications and case samples.

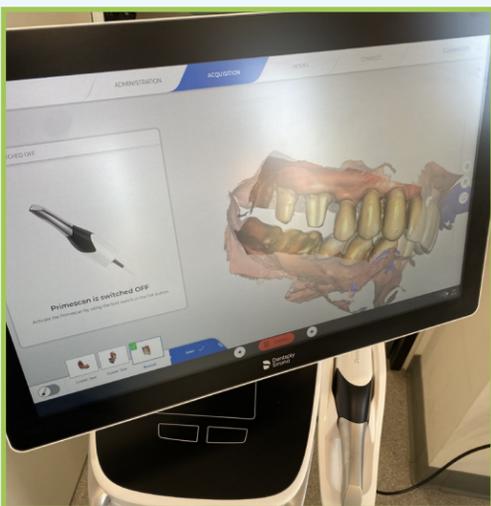

"Tooth-in-a-day" and recreating smiles. Whether it's one tooth or a full arch of teeth that we are replacing in 24 hours, the priority is always to ensure excellent function while having great esthetic results.

The field of dentistry is constantly evolving! The technology is changing to best suit clinician's ability to provide sophisticated treatments. At ClearCare, we are always on the lookout for new and emerging technologies that improve our patients' experience while providing them with the highest quality of care.

2019 Annual "Let's Talk Perio!" Lecture. Thanks to everyone who attended. As well as learning, we helped to raise much needed funds and non-perishable goods for the Siloam mission.

# ClearCare Periodontal & Implant Centre

## Coming Soon...

A multi specialty practice focused on working with our referring doctors toward a shared vision of uncompromised dental care. Our mission is to create healthy and functional smiles while implementing evidence-based therapies which promote overall health and well being of every patient. With the help of state-of-the-art technology, we are prepared to provide your patients with sophisticated and customized treatment plans that are aimed to make them look, feel and function naturally while unmarred by disease.

When diagnosed with advanced gum disease, our Periodontist Dr. Hoda Hosseini, works closely with your patients to restore and maintain optimal oral health. She practices in full periodontal spectrum with special interests in esthetic and functional rehabilitation using dental implants and reconstructive

surgeries. Dr. Hosseini is joined by Dr. Marshall Hoffer, our Prosthodontist, who has more than 40 years of experience in occlusion dentistry, restorative care, full mouth rehabilitation and implant dentistry.

In partnership with our referring doctors, our team at ClearCare is ready to provide your patients with interdisciplinary, optimized and comprehensive treatment plans. **Located downtown**, we offer ample **FREE PARKING** for your patients and are open Monday to Friday 8am to 5pm.

We look forward to working with you!
